Ackerman-Allen Course: Hole 17 // Par 3

Dear Potential Birck Boilermaker Golf Complex Member,

Thank you for your interest in the Birck Boilermaker Golf Complex. I would like to take this opportunity to welcome you and highlight what Birck Boilermaker Golf Complex has to offer. Serving the Purdue community for over 25 years, Birck Boilermaker boasts a pair of Pete Dye courses that rank among the best in Indiana and in collegiate golf.

The Birck Boilermaker Golf Complex features two 18-hole Pete Dye-designed championship golf courses with a first-class golf training center. The Kampen Course, renovated by Pete Dye in 1998, is a links style course with large bent-grass greens, fairways and tees. The layout presents a challenge for golfers of all abilities with vast sand bunkers, native grasslands, ponds and a natural celery bog. Offering five sets of tees, players of every age and ability can find a yardage that suits their game. The Ackerman-Allen Course, renovated by Pete Dye in 2015, is a parkland-style course with bent-grass greens, fairways and tees. With rolling hills, tree-lined fairways, white sand bunkers, and minimal water hazards, the Ackerman-Allen Course suits golfers of all skill levels. As with the Kampen Course, five sets of tees helps golfers with varying abilities to find a yardage best suited for them.

There are many benefits to becoming a member at the Birck Boilermaker Golf Complex; a few include unlimited green fees, preferred tee times, discounts on golf shop merchandise, and member-only tournaments and outings. In addition to our annual Boilermaker Tradition Member-Guest tournament, we offer an active Men's League, Tuesday Night League, and other options, leaving members with plenty of chances to play amongst other members.

We look forward to welcoming you as a member of the Birck Boilermaker Golf Complex.

TWO GREAT COURSES ONE LEGENDARY DESIGNER

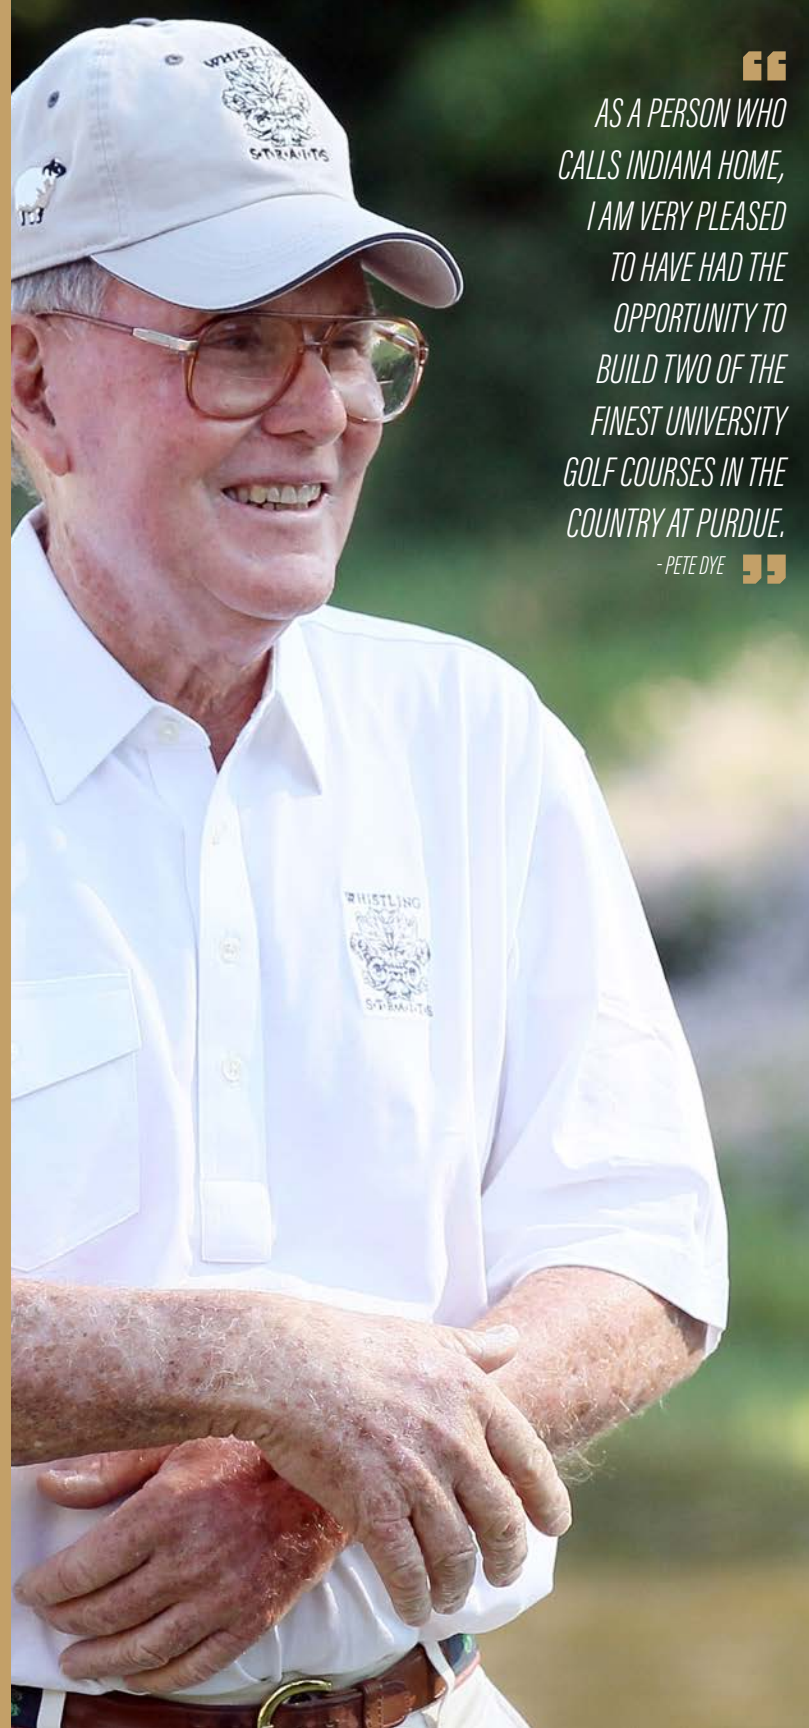

Paul "Pete" Dye was a legend in the field of golf course design and construction. He was considered in many circles to be the most influential golf course architect of the last five decades.

Dye courses frequently host events on the various professional tours and major amateur tournaments. Recently, ten of his courses were included in a national magazine's list of the top 100 in the nation.

In 1998 he lent his expertise in the renovation of the Kampen Course of Purdue University's Birck Boilermaker Golf Complex. The Course incorporates Pete's drainage and irrigation designs as well as wetlands areas that help recycle and purify water that drains onto the course. The course additionally serves as a living laboratory, combining turfgrass research and environmental studies.

In 2016, Pete returned to Purdue University to provide a new face-lift on the old Ackerman Hills Course. Dye transformed the 6,400 yard golf course into the new Ackerman-Allen Course. The course is a traditional parkland style layout that features rolling hills, tree-lined fairways, and wide collection areas around the green. While the course can be played as long as 7,500 yards from the back tees, it is also only 5,200 from the front tees. Since its reopening in 2016, the Ackerman-Allen Course has drawn massive amounts of praise.

With the Dye-designed Kampen and Ackerman-Allen Courses, the Birck Boilermaker Golf Complex has a strong argument to be the greatest collegiate facility in the nation.
